

AES York Student Section – Past Events

Attendance at Audio for Games Feb 09

***NEW* Opportunity**

There is an opportunity for one person to participate in the upcoming AES: Audio for Games Conference, RAE, London 11-13 Feb. <http://www.aes.org/events/35/> As a student volunteer your registration fees would be waived in return for aid in the running of the conference. The York AES student section will subsidise rail travel up to a sum of £25.00. Most importantly, this will likely be an opportunity to see a large portion of the tutorials and paper sessions.

However, the individual must arrange their own accommodation, therefore those with friends or family nearby would be most suited.

Please only reply if you are definitely able to attend and out of those candidates a name will be chosen at random.

NOTE: This is subject to your supervisors approval.

Closing date: 17:00 - Friday 23rd Jan 08

Outcome

Two students were in attendance at the event:

- Ian Van Roosmalen a 4th Year Music Technology Student
- Radoslaw Rudnicki a 1st year PhD student (awarded subsidy)

“Audio for Games conference was a great experience for me. I really enjoyed diversity of papers, demos and discussions. It was good opportunity to meet people from the industry. The fact that the conference was exclusively devoted to game audio made it unique. I also learned from it a lot and was inspired in many ways as well. I am looking forward to the next one!”

Radoslaw Rudnicki
